OVERVIEW

PURPOSE OF THIS MANUAL

This manual describes how to download, install, and uninstall the HINO DX II Installer.

SCOPE OF DEFINITION

This manual describes the following functions of the HINO DX II Installer (hereinafter, the Installer).

- Installing the HINO DX II
- Uninstalling the HINO DX II

RELATED AND REFERENCE DOCUMENTS

EN01N80ZZZ010102001003

TERMS AND DEFINITIONS

RUNTIME LIBRARY

 Definition: Program needed to execute HINO DX II. Execution of HINO DX II requires two types of runtime libraries: .NET Framework 4.0 and Visual C++ 2010. If any of them are not installed, the Installer will display a message telling you to download and install them before installing HINO DX II .

OVERVIEW OF THE APPLICATION FUNCTIONS

OVERVIEW OF THE FUNCTIONS

THE INSTALLER HAS THE FOLLOWING FUNCTIONS:

- Installing HINO DX II
- Updating HINO DX II
- Downloading necessary runtime libraries
- Uninstalling HINO DX II

EN01N80ZZZ010102001001

EN01N80777010102001002

INSTALLING NECESSARY COMPONENTS

INSTALLING NECESSARY COMPONENTS

EN01N80ZZZ010102003001

1. INSTALL RUNTIME LIBRARIES NECESSARY TO EXECUTE HINO DX II .

HINT

- If the runtime libraries have been installed, skip these steps.
- The Installer automatically determines whether or not the runtime libraries have been installed.
- Automatic installation of the runtime libraries requires connection to the network.

2. EXECUTING THE INSTALLER

(1) From Explorer, execute the Installer downloaded in 1.

NOTICE

Installing necessary runtime libraries requires logging in Windows as an Administrator user.

If a security warning message appears

- For Windows7 and Vista, a security warning message may appear when the Installer is executed.
- When the security warning message appears, press [Yes] to continue.
- (2) Select the language for installing the runtime libraries.

(3) The [Runtime Library Install] screen appears.

a. After this screen appears, press the [Install] button to install the runtime libraries.

NOTICE

- If this screen does not appear, go to "INSTALLATION."
- Installing the runtime libraries requires connection to the network.

To continue the installation off-line, download and install the runtime libraries in advance.

• If the Installer is executed without installing the runtime libraries, the installation will fail.

INSTALLING .NET Framework

EN01N80ZZZ010102003002

1. INSTALL .NET Framework.

HINT

When the PC is connected to the network, the installer automatically download and install the runtime library.

INSTALLING C++ RUNTIME LIBRARY

EN01N80ZZZ010102003003

1. INSTALL THE C++ RUNTIME LIBRARY.

HINT

When the PC is connected to the network, the installer automatically download and install the runtime library.

If an error message appears

• When the C++ runtime library is installed, the error message shown in the figure may appear.

This error message appears when the C++ runtime library has already been installed. Press [Yes] to continue the installation.

WHERE TO DOWNLOAD EACH RUNTIME LIBRARY FROM

EN01N80ZZZ010102003004

- 1. DOWNLOAD THE .NET Framework 4.0 AND C++ RUNTIME LIBRARIES FROM THE FOLLOWING URLS:
 - If you cannot connect to the network or you cannot download them for other reasons, contact the administrator to get the CD or other media.
 - Where to download .NET Framework 4.0 from (Microsoft's site)
